Inset		Out Area

Where International, state, and county boundaries coincide, the map shows the boundary for the only the higher-ranking of these boundaries.

A * * * * * following a place name indicates that the place is coextensive with a MCD. A - - - - - indicates that a place is above a false MCD; the false MCD name is not shown.

This map shows tribal census tract boundaries and numbers within the subject entity. nontribal census boundaries are shown outside of the subject entity but not numbered. A tribal census tract is a type of census tract defined within a tribal jurisdiction. Tribal Indian reservations or off-reservation trust land for the purpose of providing data based on an American Indian reservation. A tribal census tract is a type of census or off-reservation trust land cross state or county boundaries, the same tribal census tract number may be assigned on both sides of the boundary, and, if not, constitutes a single tribal census tract entity.

A 1, 2, or 3 following a census tract number indicates that the block number is repeated elsewhere in the block.

ENTITY TYPE: American Indian Reservation
